# Presentation of Learning (POL) Script Outline

**Directions:** To help you begin to write your POL Script, you must first fill out this entire outline. Once you are done with the outline, ***you must have your outline approved by Rita, Kaitlin, or Korey*** before you begin typing your final draft POL Script and your PowerPoint or Prezi. Remember that you must present on **two** subjects: Math and either Science or Humanities. If you decide to choose Science for your first semester POL, you will present on Humanities for your second semester POL (and vice versa). Let's get started!

## **Step 1: Introduction**

*In this paragraph, begin by introducing yourself and explaining how you have grown as a student this year. For example, you can ask yourself, "How am I a stronger student this year compared to last year? How have I grown?"*
